

OakWood Awarded Best Bathroom in 2021 National Awards for Housing Excellence

OTTAWA, MAY 2021 – OakWood Designers & Builders won Best Bathroom under 130 square feet by the 2021 Canadian Home Builders' Association (CHBA) annual National Awards for Housing Excellence. Winners were announced at a virtual awards ceremony on May 7, 2021. The CHBA National Awards celebrate the best in Canadian new homes, renovations, community development, and residential marketing.

OakWood's award winning bathroom design won, in part, for the variety of textures, patterns, and tones that created an ornamental look of refined luxury. Noteworthy design elements included the use of Statuario marble within the shower, Annica polished quartz for the vanity, shower bench, and sills, raised cabinet doors and a stunning custom mosaic installation (see photos below).

"Our clients found design inspiration during a summer trip to Lebanon where they also chose their tiles for the ensuite bathroom," comments Patricia Liptak-Satov, OakWood's COO. "The OakWood Team worked closely with our client to create a unique look with uncommon attention to detail for a traditional style of bathroom", she adds.

"We are always flattered to receive an award," says John Liptak, President & CEO, OakWood. "The ultimate reward is knowing that the OakWood Team listened attentively to our client and delivered an exceptional design that exceeded their expectations," he adds.

CHBA CEO Kevin Lee commented on how the awards are a celebration of how the industry has overcome significant challenges over the past year. "The residential construction industry, like most industries in Canada, has had a tumultuous year. But despite the unknowns and challenges with lumber and other building materials, and labour shortages, our members continued to build and renovate the homes that Canadians need, and to develop communities they want to live in," he said.
